CROSS-TENANT COLLABORATION OVERVIEW

# DIFFERENT WAYS OF COLLABORATION WITH PEOPLE OUTSIDE YOUR ORGANIZATION

1:1 and group chat in Teams

Teams meetings

Sharing individual files or folders

Collaboration in a team

Microsoft Entra ID External Identities

EXTERNAL IDENTITIES FEATURES

B2B DIRECT CONNECT

- Collaborate across tenants in Microsoft Teams shared channels
- Build on mutual trust relationship between tenants
- B2B direct connect only works with shared channels

B2B COLLABORATION

- Invite guests to collaborate in your organization
- User needs to redeem the invite (redemption process) to become a guest
- Specific guest permissions apply to user

CROSS-TENANT SYNC

- Supports more seamless collaboration experience
- One-way synchronization that automates create, update and delete users
- Build on the B2B collaboration functionality
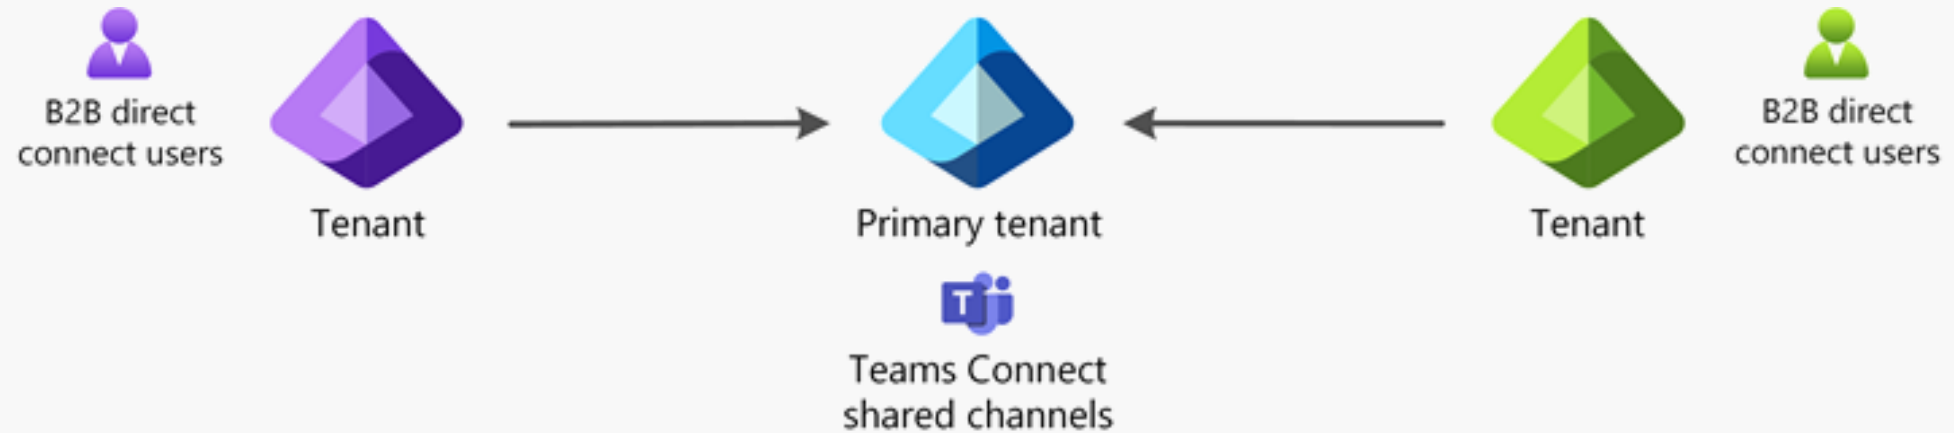

CROSS-TENANT SYNC
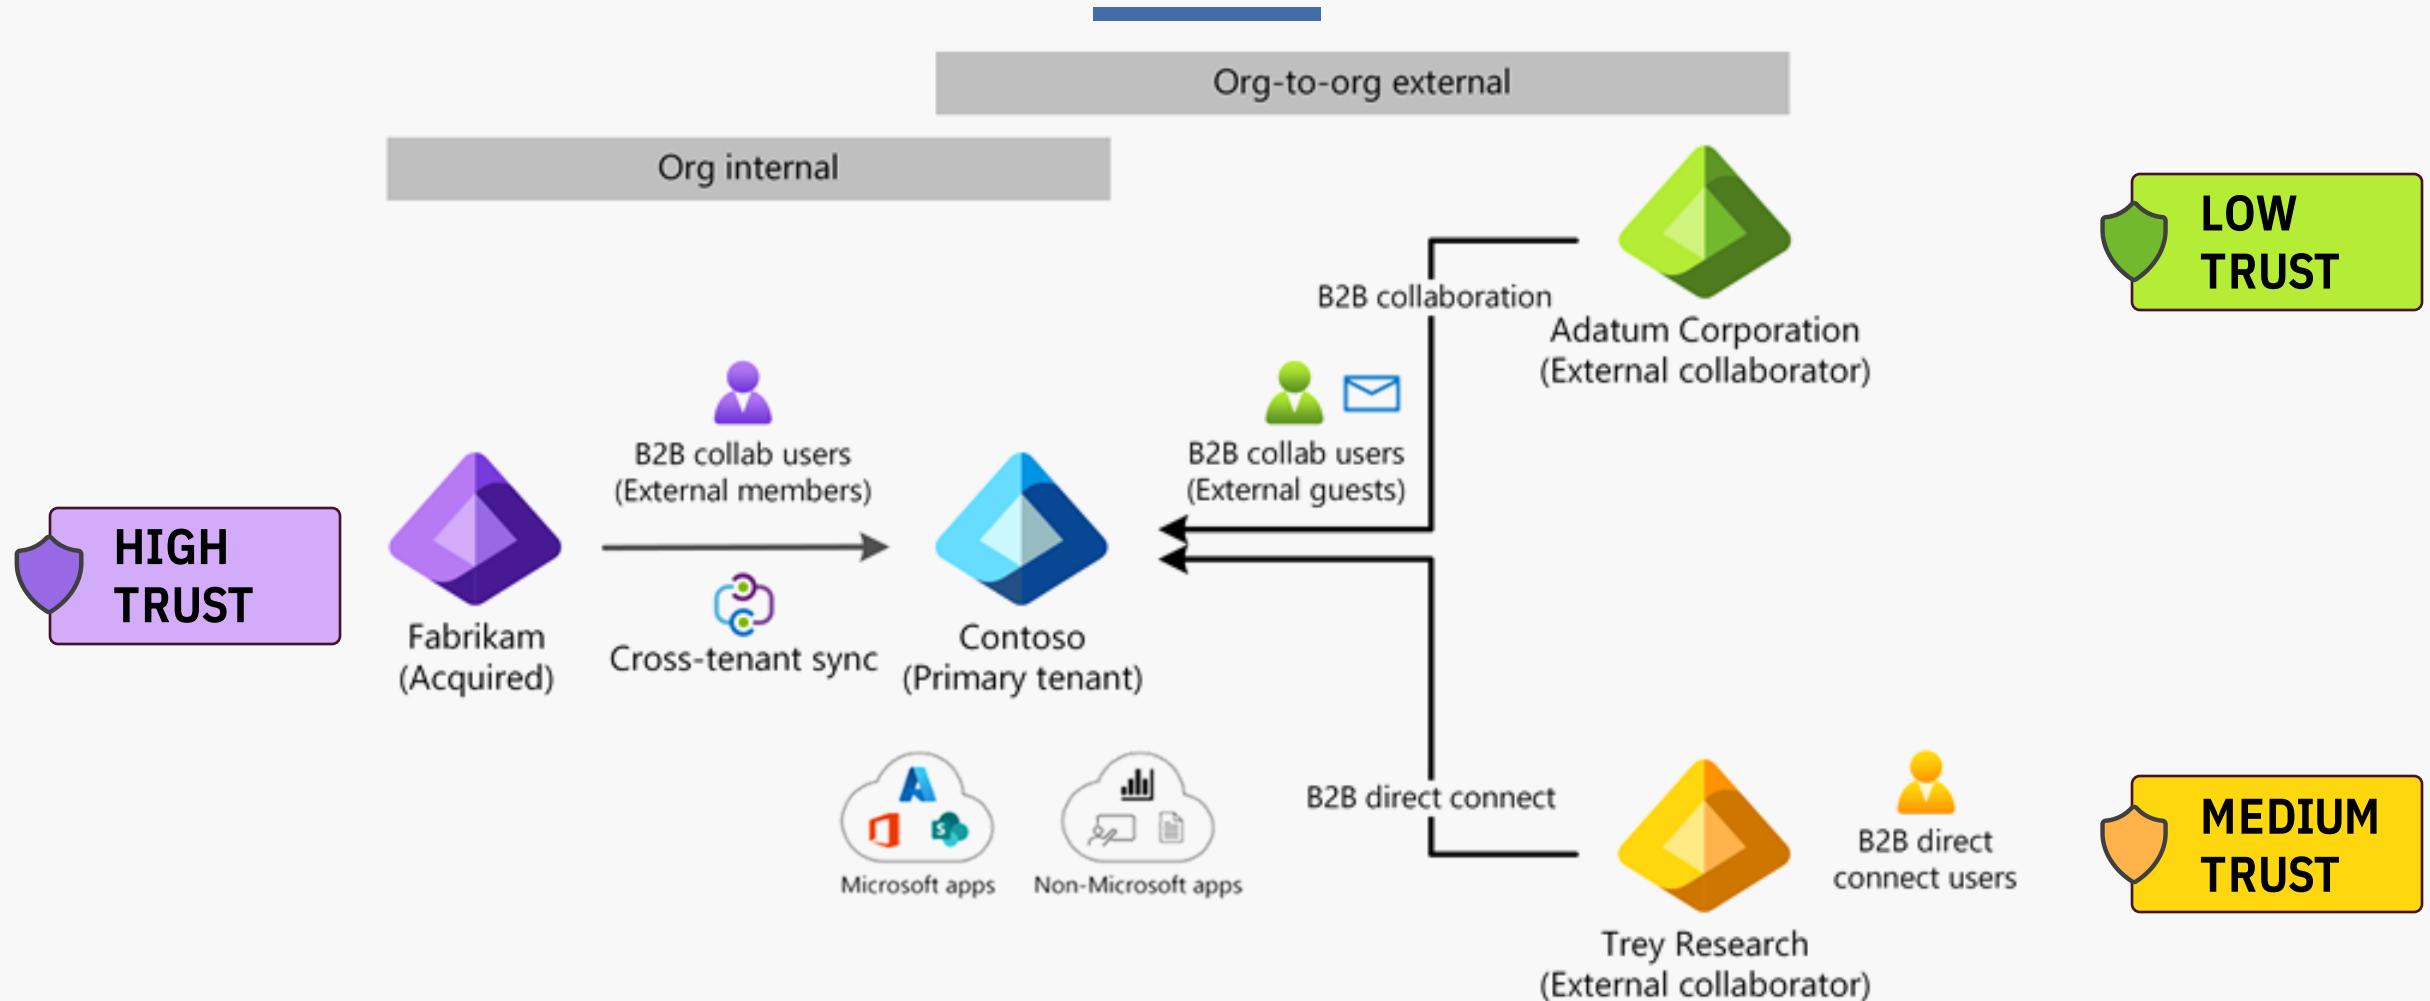

FEATURES PER ACCOUNT TYPE

Feature	User your organization	Guest Microsoft Entra B2B collaboration	External participant Microsoft Entra B2B direct connect
Team access	Y	Y	N
Shared channel access	Y	N	Y
Permissions through file sharing links	Y	Y	N
Use shared channels	Y	N	Y
Use private channels	Y	Y	N
Account in your directory	Y	Y	N
Access reviews	Y	Y	Y

LICENSE REQUIREMENTS

- B2B collaboration or B2B direct connect use the Microsoft Entra External ID billing model (see next slide)

- When using cross-tenant sync, then
  - Source tenant: Requires Microsoft Entra ID P1 for each synced user
  - Target tenant: Cross-tenant sync relies on the Microsoft Entra External ID billing model

EXTERNAL IDENTITY LICENSING

1:5 ratio billing

- Five guest users for each Azure AD Premium license

- 1:5 ratio billing model is being replaced with MAU billing

Monthly Active Users (MAU) billing

- First 50,000 MAUs per month are free for both Premium P1 and Premium P2 features

- Requires a subscription linked to your tenant
